David, Mathy, the attached is a draft communication plan that R3 OPA put together with input from the various EPA Programs who are involved in the Dimock project. I welcome your feedback and the opportunity to answer any questions that you might have. I'll be out of the office tomorrow and all of next week while in training, but if you leave a message (215-814-5550) I'll be sure to return your call as soon as I get a break.
